RE: STSM approval for Mr. Sam Willems

September 22, 2019

Dear Mr Willems,

I wanted to thank you for your final report and the excellent work you did during your stay with my research group, the ZTHZ, this past month. The project is sure to aid our understanding of the relationship between different types of activities and hen nutrition. I wholeheartedly approve of your report and look forward to opportunities for future collaborations.

Mit freundlichen Grüssen,

Michael Toscano, PhD
